

Medical Quiz

Saeed Alhindi, MD, CABS, FRCSI*

A nine-year-old male patient presented with sudden onset of left testicular pain lasting for two hours and radiating to the abdomen. There was no history of trauma, fever or weight loss. Clinical examination revealed left scrotal redness and severe tenderness.

Look at the picture below and answer the following questions.

Q1. Mention the radiological test required in this case.

Q2. Mention two possible diagnoses.

* Assistant Professor, AGU
Consultant Pediatric Surgeon
